

DATE: 1 December 2021

**SUBJECT: DISCONTINUATION OF REPAIR SERVICE AND REPLACEMENT PARTS FOR OLDER SEASONDE®
"SQUARE BOX" STYLE ANTENNA**

Dear Customer,

In late 2008 CODAR began offering for purchase a SeaSonde “dome-style” antenna, that replaced the previous “box-style” antenna design. While sales of “box-style” antennas were discontinued in 2008, CODAR has been providing support and antenna board repairs and replacements for these older model units until today.

As a policy evolution CODAR is announcing a planned End of Sale and an End of Support for the Square Box Loop Antenna, as follows:

End of Sale: REPLACEMENT ANTENNA BOARD FOR THE SQUARE BOX STYLE ANTENNA

Replacement Square Box Loop Antenna Boards for existing systems can still be purchased until 1 May 2022. The outer antenna box housing has not been for sale since 2008 therefore the customer's existing box housing will need to be in good shape if purchasing a new replacement antenna board.

End of Support: Square Box Loop Antenna

The Square Box Loop Antenna will no longer be field serviceable or repairable after 1 May 2023. When an older model box style antenna fails we recommend replacing with the latest model SeaSonde antenna (a “dome style” one).

Please contact CODAR technical support via support@codar.com or your local authorized CODAR distributor / service agent for more details.

Thank you for your consideration and we apologize for any inconvenience this may cause.
